

NEW PRODUCT ANNOUNCEMENT

Now available: Power Tool Test Fixture for use with the
TruCheck™ Plus 1000

When used in conjunction with a TruCheck™ Plus 1000, this newly launched Power Tool Test Fixture provides a cost effective means of testing the following Norbar Pneutorque® wrenches:

- PTM-52 series
- PT 72 series
- PTM-72 series
- PTME-72 series

These wrenches may be tested up to 1000 N.m (750 lbf.ft).

The Power Tool Test Fixture consists of:

- 1 x Joint Simulation 'Rundown' Assembly
- 1 x Light weight aluminium base plate
- 1 x Reaction plate
- 1 x ¾" drive adaptor (socket)
- 1 x 1" drive adaptor (socket)
- 1 x Reaction adaptor

The Joint Simulation 'Rundown' Assembly can be purchased separately for customers wishing to design their own reaction fixtures.

***NOTE: The Power Tool Test Fixture is not recommended for use with impact or impulse type wrenches.**

***NOTE: The Joint Simulation 'Rundown' Assembly is not recommended for use with impact or impulse type wrenches.**
