Date: April 6, 2020  
Subject: Covid-19 – Business as usual in essential sectors

Dear valued business partner,

On March 23, 2020, in an effort to help reduce the spread of coronavirus (Covid-19), the Québec Premier ordered the closing of all businesses in Quebec considered to be non-essential, until April 13, 2020, and subsequently to May 4, 2020. To help guide businesses and stores, the government has established a list of essential services and commercial activities.

According to this list, businesses that supply inputs to essential sectors, such as defence and infrastructures, are also considered to be engaged in essential commercial activities.

Our top priority remains the health and safety of employees, families and our business partners. We believe it is important to participate in the collective effort so that the activities of our company which are deemed essential can continue as normally as possible given the circumstances.

We would therefore like to inform you that our company is maintaining operational activities even if they may be slowed down. Please rest assured that we will make every effort to deliver the same quality of service that you have grown accustomed to.

Sincerely,

McCann Equipment Ltd.
